**Read the passage and answer the questions(.3)**

**Who is a scientist?**

The world around us is full of amazing things. Knowing this beautiful world is very interesting for humans. One group of people who study the world are scientists. A scientist studies nature, animals or people. Scientists work hard and do research to solve problems, find facts or invent new things. Scientists learn about the world by observing and experimenting.

Some scientists become very famous and rich. Many people around the world may remember their names and faces. But this is not what they call success. They feel successful when they solve problems and find answers to their questions.

**Are these sentences true or false.(39-40)**

39.Only scientists like to study the world.....

40.Scientists think success means becoming rich.....

**Read the story again and answer these questions:**

41.How do scientists learn about the world?

.....

42.What does an inventor do?

.....

Goodluck
