Read the paragraph. Answer the questions.(3.5)

You may have heard that polar bears are endangered. What does that mean exactly? Endangered means there are very few of that kind still alive. Someday they might become extinct. You may wonder what people can do to help endangered animals.

People can protect plants and animals from becoming endangered or extinct. One way is to protect the animals' or plants' habitats.

People can make laws that protect plants and animals. Laws can be made to protect their habitats. Hunting laws do not allow people to hunt certain animals. Some laws limit the number of trees that can be cut down in forests. Other laws say that people cannot build homes, factories, or stores in certain places. Laws can protect the air and water from pollution.
