Part B Understanding Grammar

Fill in the blanks with appropriate "measure words". (1 points)

Sara is not good at tenses. While writing this passage, she made 4 mistakes. Can you correct them? (1 points)

There are many uncountable words for food in English. Native speakers often use words such as 'a bag of', 'two slices of', or 'a piece of' with uncountable nouns. This usually happens when they go shopping. They may ask for two (...bottles...) of water, a of sugar, a of bread, or two of meat. In a coffee shop, they may order a cup of tea, a of cake, or a glass of juice. If a foreign learner uses uncountable words wrongly, English speakers may not understand them well. So when you learn English, be very careful about this important point.

New medicines and medical inventions have save the lives of many people. They have let people have a happy life and live longer. New medicines such as anti-cancer drugs and new antibiotics has cured many patients. Some technological inventions have helped doctors to check people's health condition. They have find keys to the secrets of the human body. New technologies already have helped doctors to understand how diseases develop.

Part D Reading Comprehension (4 points)

Why do Moallemkoliaees love apples?

Moallemkolia is a big village in Mahmoodabad, Mazandaran. It is said that the villagers love apples. Actually, they are famous for it. Recently, we did a research to understand why this fruit is very important to them. One of the students who is from this village has given a lecture about apples. Here is what she said:

Apple is one of the healthiest parts of our food. From the earliest times, people of the world had a lot of fruits. According to historians, the main source of apples is the cold regions of northern Europe, and from there this valuable and useful fruit is transferred to other parts of the world. Apple is one of the fruits that was recognized before other fruits. Human civilization has long been **linked** to apple. Above all, it is a sign of love, friendship, beauty, happiness, well-being, wisdom, joy, strength, and so on. Apples are of very different types. People who regularly eat apples will increase **their** well-being. In addition, it prevents the occurrence of many diseases that are due to the lack of vital elements.

Here are some other facts about apples in her presentation:

In general, apples help improve respiration, treatment and prevention of asthma. They also help to treat anemia (anemia), improve diabetes, and increase vision. Apples help to increase intelligence, prevention, and treatment of Alzheimer's disease. They reduce blood cholesterol and the risk of heart attacks. Apples make you hungry later. They support digestive system, and fight cancer.

1. What is the main idea of this passage?
2. Where did apples come from?
3. Why do Moallemkoliaees love apples?
4. The word "**their**" in the 2nd paragraph refers to a)apples b)types c)people d)diseases
5. What is the closest meaning of "**linked**" in the 2nd paragraph? a)connected b)different c)related d)limited
