IV. Read the passage and choose the correct answer :

Science has told us so much about the moon that it is fairly easy to imagine what it would be like to go there. It is certainly not a friendly place. As there is no air or water, there can be no life of any kind. There is no variety of scenery either. For miles after miles there are only flat plains of dust with mountains around them. If you step out of the mountain shadows, it will mean moving from severe cold into great heat. These extreme temperatures continually break rocks away from the surface of mountains. The moon is also a very silent world, for sound waves can only travel through air. But beyond the broken horizon, you see a friendly sight. Our earth is shining more brightly than the stars. From this distance, it looks like an immense ball, colored blue, green and brown.

1. Which of these statements is true?

- a) According to the scientific findings, going to the moon is easy but living there isn't pleasant.
- b) According to the scientific discoveries, living on the moon is easy but not pleasant .
- c) Science has informed us of the easiest way to go to the moon.
- d) Science has told us that it is easy to live on the moon.

2. There can be no life on the moon because

- a) the weather is very cold
- b) there is no air
- c) there is little oxygen
- d) the weather is too dry

3. Why are the mountain surfaces removed?

- a) Dust is blown over them.
- b) Mountain shadows are not cold
- c) Mountain shadows are not cold
- d) High heat and cold break rocks

4. One cannot hear anything on the moon. Why?

- a) Sound is produced on the earth.
- b) Sound cannot be heard in the airless space.
- c) Sound waves cannot move through the cold air.
- d) Sound waves travel through the oxygen molecules.

5. It is implied that.....

- a) the earth is the only place to live on
- b) the moon is a so beautiful and unique place
- c) the moon can be a good place for living
- d) living on the earth is not very pleasant
